MUSTACHE BAN IS REMOVED

Mrs. Fish Decides Not to Force Her Mandate to a Finish.

New York, Aug. 12.—(Special.)—It is announced at Newport that a compromise has been effected in the merry war in which the existence of a dozen or more mustaches was at stake, and that each of the old fashioned quadrilles which are to be a feature of Mrs. Stuyvesant Fish's colonial ball at Aug. 22 will be danced with full complements of men after all. It is a fact that Mrs. Fish desired some of her friends to part with their mustaches so that the pictures that the reproduction of the dances of olden days are expected to produce would be complete. It is a fact, too, that some men desiring to please Mrs. Fish and not to displease themselves took the matter very much to heart. But as a matter of fact the hospitable hostess of Crossways is not so easily put out, and, learning through the newspapers of the dilemma of some of her friends, she promptly had them assured that after all the matter of their mustaches was really of no importance compared with their own comfort and peace of mind at her ball. So now those who are willing to part with their mustaches will and those who do not wish to sacrifice them need not feel called upon to do so.

Many persons have written to the fair directors at Madison expressing their anxiety for the safety of the engineers who will remain in their locomotives during the head end collision that is to take place.

Nearly thirty years ago Mr. Roberts opened a law office in Indianapolis and was building up a good practice when, five years later, he disappeared suddenly and has been mourned as dead. Since leaving Indianapolis he has been a wanderer over the United States and finally settled at Bloomington, where he is conducting an implement business. Water to Succeed Fire.

Invention and discovery assure us that there will be no limit to progress in the long distance carrying of electric energy. While water holds out to run, therefore, why should man bother with questions of coal mine exhaustion or wrestle endlessly with the smoke nuisance? Silently, cleanly, without fuss or fumes, a power that heats, lights and moves, all from the same wire, will yet be brought cheaply to the door of every shop and home.

De Young and Harrison Gray Otis, who seek to wrest control from the machine.

Camden, N. J., Aug. 12.—Warrants were issued in this city for the arrest of George Jonas of the Jonas Glass Company of Minotola, N. J., on charges of violation of the child labor laws, intercepting telegraphic messages and attempting to prevent an employe from joining a labor organization. The glass company has had difficulty with its employes since April last, when a strike was inaugurated. The workmen claim the company employed child labor to take their places. Recently the company secured injunctions against the Glassmen's union restraining it from interfering with its employes, and it is on the papers in that case that part of the present prosecution is based.

BIG LABOR DAY PLANS ARE MADE

PARADE, PICNIC AND DANCE ON THE PROGRAM.

WILL BE 20TH ANNIVERSARY

All the Labor Unions of the City Will Be in the Line of March.

Union labor organizations in this city have made preparations for an elaborate celebration of labor day this year. As this will be the twentieth anniversary of the establishment of that holiday every effort will be made to make it memorable in the history of organized labor in this city, and with speeches, games and all that goes to make a successful holiday the day will be spent at Crystal Springs park.

At ten o'clock in the morning the exercises of the day will begin with a street parade in which every member of the labor unions of the city is expected to march. The women's union league will probably occupy carryalls in the parade. It has not yet been determined where the parade will be formed but its objective point will be the Crystal Springs dock.

Go Up The River. Arriving at this point the entire party will take the steamer and proceed up the river to the park where the first event of importance will be the serving of a basket dinner.

The afternoon will be taken up with various forms of games and sports. Egg races, potato races, sack races and other laughable performances will make up the athletic program. In addition to these sports addresses will be delivered in the course of the afternoon.

Morgan To Speak

T. J. Morgan of Chicago has been engaged as one of the speakers. Mr. Morgan is an attorney, who has acted in behalf of the unions in several important cases and is considered a powerful speaker. He was formerly, before he took up the practice of law, a union workman. J. J. Cunningham of this city will deliver the other address of the afternoon. In the parade in the morning and throughout the afternoon at intervals in the program the Imperial Band will furnish music.

Dance Later

In the evening a dance will be held for which Baldwin & Rehfeld's orchestra has been secured. The general arrangements for the day are in charge of the trades council of the city, and they have appointed sub-committees to attend to the details of the program.

George Hubbard has been chosen marshal of the day, and W. H. Phelps, the president of the trades council, will act as president of the day. Every committee is hard at work, and all indications point to a very successful holiday and labor celebration.

THE CROP MARKET.

In the main, developments during the past week have been favorable. The principal crops are making excellent progress, and the country now seems assured of nothing less than a big corn crop in contrast with a failure a year ago. This apparently is the keynote of the situation for the time being. Nearly all advices from the West are of an optimistic nature; and, if present expectations are realized, the farmers will have a much better season than last year. From the South, where an ample crop of cotton is promised, the reports are all encouraging; and the general impression is that the entire country will have a Fall trade equal to if not slightly in excess of last year. While the crop and business situation is satisfactory the industrial outlook is hardly as promising as at this time in 1901. The unsettled condition of labor exerts a deterrent effect upon new enterprises, and the increased costs of production which the demands of labor are imposing are creating a situation that causes more or less anxiety concerning the future. Profits are already declining, and the present high level of prices makes it impossible for manufacturers to compensate themselves by further advances that would simply curtail production and leave the producer in no better situation. It seems quite probable that the ability of manufacturers to advance wages has about reached its limit, for the reason that advances in wages now means still higher prices for products, which cannot be obtained under present conditions. Meanwhile manufacturers are confronted with another problem—that of new competition—which, combined with new methods and small capitalization, is making active headway against the older heavily capitalized concerns. Altogether, therefore, the industrial situation will bear some careful watching, the indications being that we are nearer a reaction in this part of our economic machinery than is generally supposed. If it has not been already entered, for this reason the strike fever cannot be regarded with the equanimity that would be possible if prosperity promised unknown continuance. With the plain intimations that we are near a downward turn in prices and profits, much of the strike agitation will prove ill-timed and injurious.

BIG FISH HAUL BY CHAM KILMER

Catches Fifty-Seven Bass in a Few Hours, Off the Bridge.

Cham Kilmer caught fish enough Sunday to make several messes for himself, and to furnish all the neighbors with enough for a fry. Cham who is an enthusiastic fisherman spent a part of Sunday afternoon on the lower bridge, trying to entice the finny residents to bite, but without much success. He tried several different baits and finally bethought himself of a fly-book he had in his pocket. He tied the book on his line and no sooner had it touched the water than a fine silver bass grabbed it. From then on the fun was fast and furious, and "Cham" had a fish in the air most of the time. The sport lasted until over fifty fish had been landed on the bridge, when Cham concluded that he had enough and started on his triumphant march for home. During the time the fish were biting, Cham was the busiest man in town landing the fish and fighting with a crowd of small boys that interfered with his sport. He has made some good catches before but the one Sunday was far ahead of any of his previous hauls.

DIDN'T WANT THE EARTH ANYHOW

If He Had It, His Mother Would Surely Give It to the Heavens.

Reginald may be a small Jansville boy who is good—very good—not particularly because he wishes to be but because it is the delight of his parents. It is a hobby of theirs. Reginald stands it pretty well but tired nature rebels occasionally and he helps nature out to the best of his ability. On these occasions it is the habit of his mother to rub pepper sauce on his wounded spirit by quoting scripture verses showing the glory of perfect submission. It was a few Sundays ago when the boy rebelled against going to the third or fourth service and had declared that he wasn't going to be obedient any longer that his mother remarked: "But, Reginald, you know the bible says that the meek shall inherit the earth."

"Yes," said Reginald, his wrongs coming up before him in a huge lump, "but if I did inherit the earth, you'd make me give it to the heavens or put it away in the bank or put it in the collection box. I wouldn't get any use out of the darned old thing at all."

TO INSTALL NEW FIRE PROTECTION

CHOATE-HOLLISTER PLANT WILL HAVE MODEL SYSTEM.

PLANS TO PREVENT FIRE LOSS

Will Have Valves That Open Automatically at a Certain Heat.

At some time this fall an automatic system of fire protection will be installed in the Choate-Hollister factory. It will be of the common type in which a rise in temperature automatically opens the valves and floods the fire. Superintendent Estes said in speaking of the proposed change that the first automatic sprinkler that was introduced in Massachusetts was in the plant of which he was then the superintendent.

It was in the F. F. Holmes furniture works in a small town in central Massachusetts, some twenty-five years ago. The building was a three-story brick structure 280x60 feet in ground area. The entire building was protected by automatic sprinklers but no fire came. At last about two years ago a fire broke out one night in the finishing room on the top floor. The system worked to a charm so far as wetting the building was concerned. The fire was extinguished almost instantly, but the water continued.

Flooded Store Rooms

The water was shut off and then the water which had already discharged began to find the crevices to the floors below. Both of the lower floors under the finishing room were occupied as store rooms and were full of highly polished furniture. One half of the factory was completely soaked, and at the first glance it seemed as if every polished table and varnished bookcase in the building was ruined. The water had streaked and spotted everything that it had touched.

Insurance for \$205,000 was carried on the contents of the building and the agents immediately arrived on the scene to look over the damage of the fire. The sprinkler had done its work so thoroughly that there was practically no loss for that on that score, but \$42,000 damage was paid to settle for the work that water had done on the two lower floors, and the insurance company seemed to think that they were getting off cheap at that.

Pipes Froze

A short time after this on a cold winter night another catastrophe befell the factory from a falling off of air pressure. The pipes froze and then burst and flooded the building a second time, although the damage was not so great. Despite these two experiences Mr. Estes believes in the sprinkler system and will soon have the local factory protected by one.

WAGGONER IS A SLIPPERY PRISONER

He Escapes from Sheriff Maltress on the Way to Waukesha.

Hugh Waggoner, Jr., was too swift for Sheriff Maltress and gave him the slip at Jefferson Junction yesterday while the sheriff was taking him at Waukesha.

Slips Away

They were standing on the platform at Jefferson Junction, where they change cars, waiting for the train from Macdon. As the train came into the station, Waggoner, who had been watching for a chance to escape, jumped across the track only a few feet in front of the approaching engine.

Eludes the Sheriff

Before Maltress could make a move the engine had gone by and the boy had secured a good start. When the train stopped the sheriff ran around the other side but the boy had succeeded in getting into the woods and kept out of the sheriff's way. He is a slippery kid and it is liable to be some time before he is caught.

RUBBER TIRES CUT BADLY ON STREETS

Coarse Stones Used in Repairing Cause Complaint from Owners of Fashionable Rigs.

People who own rubber tired vehicles, and there are a great many in this city, are making a vigorous kick on the way the street commissioner is dumping loose crushed stone into holes in the streets. The coarse sharp stone is dumped into the holes and leveled down, but no fine stuff or top dressing is put on it. The result is that the first time a rubber tired buggy or carriage runs over one of these piles of sharp stones, the tires show cuts, and the cuts increase in number as the stone piles are encountered. Under this condition of things a good rubber tire that should last two seasons is soon so badly cut that it is worthless.

A coating of fine crushed stone over the coarse stuff would remedy this and save many a rubber tire. The owners of this class of vehicles are talking of making a protest to the council unless a change is made in the mode of repairing the streets.

Cars Wrecked and Burned.

Harrisburg, Pa., Aug. 12.—The first section of an express train on the Pennsylvania Railroad ran into the side of an eastbound freight train. Seven freight cars were wrecked and burned.

"The pitcher that goes often to the well is broken at last." There's a world of wisdom in that familiar proverb, and a sound application of it to disease, especially to such familiar forms of disease as coughs and colds. Singularly enough the very thing that ought to cause alarm is given as excuse for a feeling of safety. "It's nothing; only a cough. I've had it before." The fact that a cough recurs periodically should be warning enough to take it in time, for the most serious and disastrous of all maladies begins with a cough.

The use of Dr. Pierce's Golden Medical Discovery not only stops the cough but cures the cause. It cures obstinate, deep-seated coughs, bronchitis, weak lungs, hemorrhages, diseases which if neglected or unskillfully treated find a fatal termination in consumption. Accept no substitute for "Golden Medical Discovery." There is no other medicine "just as good" for weak lungs.

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Belton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so bad. I had a bad cough, spit blood, was very short of breath, and I could hardly get my breath at all some times. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and Pleasant Pellets I was so weak I could not sweep a room, and now I can do a small washing. I worked in the canning factory this fall, and I feel like a new person. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took thirteen bottles of the 'Golden Medical Discovery,' and four vials of Dr. Pierce's Pellets."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

BUTTERINE MEN. GET A SETBACK

WOULD MAKE OLEO TAXABLE

Commissioner Yerkes, After a Chemical Examination, Declares the Stuff to Be Artificial Coloring Matter and Unfit for General Use.

Washington, Aug. 12.—Mr. Yerkes, the commissioner of internal revenue, has made a decision on the question of whether palm oil in very small quantities may be used in the manufacture of oleomargarine. The commissioner holds in the negative. In his decision the commissioner says:

"After making full examination and chemical analyses of the samples submitted you were notified by office letter on July 2 that the oil was rancid, of bad taste and smell, and that it was considered by this office wholly unfit for use in oleomargarine.

Contains Fatty Acid.
"On July 11 you submitted a sample of what you termed 'refined palm oil' and asked for expression as to whether in its present condition it would be considered a suitable and proper ingredient of oleomargarine. This sample was examined and subjected to chemical analysis in the office laboratory. It was found to contain a large amount of free fatty acid, it was by no means free from disagreeable odor and taste, and was of a very deep red or orange color.

Deleterious to Health.
"If all like the sample were used in any considerable quantity as one of the fatty ingredients it would undoubtedly cause a condition under which this office would rule that the oleomargarine contained an ingredient deleterious to public health and offensive in taste and odor.

"After this second sample had been submitted and the matter was under advisement in this office, fullest opportunity was given for hearing and oral argument by you and others interested upon the subject of the use of palm oil in the manufacture of oleomargarine.

Imitates Butter.
"As a result of the examinations made of sample oil submitted it was virtually agreed at the hearing that palm oil of the grade of the samples examined could not be introduced into the manufacture of oleomargarine in considerable quantities, as oleomargarine oil, neutral oil, cottonseed oil, butter or milk are now introduced, but only in quite small quantities or proportions. It was further found by examination in this office that, take any given quantity of unartificially colored oleomargarine, if three-tenths of 1 per cent of the palm oil submitted was introduced therein, it would give to the finished product a shade of yellow and that the finished product would in appearance be in imitation or semblance of butter.

Is Subject to Tax.
"In other words, that if to the finished sum total of uncolored oleomargarine in weight 1,500 pounds there was added a little less than five pounds of this palm oil, the result would be a marked change in color, there being secured through the introduction of the palm oil to the finished product a shade of yellow causing the finished product to look like butter.

"Under the law a tax of 10 cents per pound is assessed against oleomargarine until it is free from artificial coloration that causes it to look like butter of any shade of yellow, in which case the tax is one-fourth of 1 cent per pound.

Artificial Color.
"This office rules that where so minute and infinitesimal a quantity of a vegetable oil is used in the manufacture of oleomargarine as is proposed to be used of palm oil, and through its use the finished product looks like butter of any shade of yellow, it cannot be considered that the oil is used with the purpose or intention of being a bona-fide constituent, part or element of the product, but is used solely for the purpose of producing or imparting a yellow color to the oleomargarine and, therefore, that the oleomargarine so colored is not free from artificial coloration and becomes subject to the tax of 10 cents per pound."

SUPREME COURT JUSTICE NAMED

COMES FROM MASSACHUSETTS

Oliver Wendell Holmes of the Bay State Supreme Bench Succeeds the Venerable Jurist Who Retires on Account of a Paralytic Stroke.

Washington, D. C., Aug. 12.—The president has accepted the resignation of Associate Justice of the Supreme Court Horace Gray, which has been in his hands for about a month. At the same time the president appointed Oliver Wendell Holmes, chief justice of the Supreme court of Massachusetts, to the vacancy caused by the resignation of Mr. Justice Gray.

Mr. Justice Gray had a stroke of paralysis last January. Since then he has had another stroke. He is a man of great size, with a natural tendency to apoplexy. He has not been on the bench since he was first stricken, and his resignation has been expected by all his friends for several months, though it has not been known to any except those who were closest to him and the president that the request for the appointment of his successor had already been made. Justice Gray had been on the Supreme court bench longer than any other man now there except Justice Harlan.

New Justice Stands High.
The new Justice, Mr. Holmes, was not himself an intimate friend of the president, but he was high in the estimation of the circle of Massachusetts politicians and statesmen with whom the president has been most identified. Senator Lodge and those who move with him in public affairs in and about Boston have always been known to regard Mr. Holmes as the leading jurist of his generation.

The president was greatly pleased when the acceptance of the place came into his hands from Mr. Holmes. The resignation of Mr. Justice Gray was to take effect at the president's convenience, and has been thus delayed by the decree of the president to make an appointment to the Supreme court bench that would be satisfactory from every possible point of view. Inasmuch as Mr. Justice Gray was appointed from Massachusetts, it was altogether fitting that the leading jurist of Massachusetts, should succeed him.

Others May Retire.

Mr. Justice Gray retires on his full salary, \$10,000. Under the law he might have retired at any time during the last two years, as he is 74 years of age. There are three other men on the Supreme court bench whose privilege it is to retire voluntarily on full pay. They are Chief Justice Fuller and Justices Harlan and Shiras. The patriotism and devotion to duty are generally recognized, but the feeble health of several justices of the highest of United States courts has made it extremely gratifying to many that an opportunity has come to infuse into the court the strength and renewed energy which comes with the appointment of a new and active justice.

General Smith refused to discuss the order relieving him. He said he was still a soldier and amenable to army regulations. When the time came to make a statement it would be made and not until then. SERIOUS CHARGES AGAINST TRUSTEE

GIVES DAMAGING EVIDENCE

Claims That W. E. Murphy Is Guilty of Immoral Conduct With Women Nurses—Criminal Neglect Alleged on Part of Supervisor.

Kankakee, Ill., Aug. 12.—Direct charges of intemperance and immoral conduct with women nurses were preferred against Trustee W. E. Murphy of the Eastern Illinois Hospital for the Insane at the session of the state board of charities convened here for the purpose of investigating the management of the institution.

The charges were specific, and named the date of the offenses as of comparatively recent origin. The author of these sensational allegations of the governing board of the asylum was H. H. Ball, 6911 Union avenue, Chicago, a conductor for the City Railway Company, who left Kankakee last May.

Charges Intoxication.
Charges of intoxication on the part of Supervisor Wagner and almost criminal neglect by those in authority in the conduct of the fire department were also preferred.

The most damaging evidence against Murphy was elicited from Ball when recalled to the stand by the defense.

The later invoked the rules of evidence in an attempt to kill the inquiry on the date of its birth. The recalling of Ball makes him a witness for the defense.

It appeared from Ball's testimony that he had never mentioned either of the alleged incidents until he was recently suspended for fighting.

Denial by Murphy.

Trustee Murphy took the witness stand at once and under oath explicitly denied the charge in all particulars, and was corroborated by Night Clerk William Croxson and E. W. Rood, deputy county clerk of Tuscola, the latter of whom testified that at the time Trustee Murphy was in Tuscola.

Other testimony related chiefly to the payment of political contributions by employees and the charge of drunkenness against Supervisor of Male Attendants Wagner.

Another gang was engaged and transported here, but would not commence work till the trouble with the old men had been adjusted. These, too, were dismissed.

BRIDAL COUPLE TO GO TO JAPAN

MISS LOWELL BECOMES WIFE OF
C. V. HIBBARD.

WEDDING A SOCIETY EVENT

Young People Will Sail in October
for Tokio, and Engage in For-
eign Missionary Work.

At the pleasant home of the bride's parents, Mr. and Mrs. E. W. Lowell, 152 Havine street there occurred this afternoon the marriage of Miss Sue Lowell, their only daughter, and C. V. Hibbard, of Racine. The wedding was one of more than ordinary significance and interest because the young couple are to enter almost immediately on their life work as foreign missionaries, their chosen field of labor being Japan.

The wedding was a most beautiful one in all appointments and it was amid the happiest and most auspicious surroundings that the ceremony took place. A company of about fifty relatives and friends witnessed the impressive ceremony which was solemnized in parishes which were handsomely decorated with potted plants, cut flowers and smilax in abundance.

Unique Decorative Scheme
Artistic originality characterized the floral decorations which were uniquely effective. In the parlor where the ceremony was performed the entire west side of the room was partitioned off with grille work which resembled an arch and a great gateway beneath. This was done entirely in smilax, the graceful columns and railing being wound with the delicate vines. On the gateway posts stood great potted palms and these were also used as an effective background behind the smilax grille.

From the central chandelier above was suspended an immense bunch of sweet peas and great bouquets of these fragrant blossoms were used in profusion both in this parlor and in the adjoining one. The other rooms were effectively decorated with nasturtiums, golden glow and golden rod.

Impressive Ceremony.
Promptly at four o'clock the bridal party entered the parlors to the familiar strains of Mendelssohn's wedding march played by the Orpheus mandolin club. Miss Dagmar Hansen, of Racine, was the handsome maid of honor and the groom was attended by his brother, Darrell Hibbard, of Racine.

Bridal Costumes.
The bride's fair beauty was enhanced by a most becoming gown of white embroidered muslin. She carried a shower bouquet of lilies of the valley, the flower of the Alpha Phi sorority, of which the bride is a member. Miss Hansen was prettily gowned in white silk batiste and carried sweet peas.

Officiating Clergymen.
During the ceremony the bridal party stood behind the delicate tracery of smilax railings. The full ring ceremony was used, the officiating clergyman being the Rev. B. R. Cheney, of Beloit, cousin of the bride. He was assisted by the bride's pastor, the Rev. J. H. Tippett, of the Court street M. E. church.

Japanese Refreshment Tent
The ceremony and congratulations were followed by the serving of the elaborate wedding feast. The tables were laid within an immense tent which was erected on the lawn. The interior of the tent was entirely Japanese, immense umbrellas, lanterns, flags, pennants and draperies combining in pleasing oriental effect. The center pole of the tent was concealed by fluttering pennants mingled with great stalks of gladioli. The entire decorative scheme both in the house and in the tent was the product of the artistic skill of Misses Elizabeth Palmer and Mary Barker, friends of the bride, and was their labor of love for her.

Margarites and Ferns
The bridal table was beautifully decorated in margarites and maiden hair fern, the centerpiece being a great basket of the stately flowers and dainty foliage. There was also an Alpha Phi table, at which the guests from the bride's sorority were seated. This was decorated in bordeaux and gray, the sorority colors, dark wine sweet peas and ribbons being used. The other guests were served at small tables decorated with sweet peas. While the mandolin club played sweetly the guests were prettily waited on by Misses Mary Stevens, Ella Sutherland, Eretta Kimball, Edith Loomis, Belle Strauser, Helen Menzies, Belle Menzies and Ethel Sayre of Beloit, who served under the direction of Mrs. Louise Bowerman, the caterer.

University Romance
The romance which culminated in the wedding today began at Northwestern university and was continued at the University of Wisconsin from which institution of learning both the bride and groom graduated in the class of 1900. Miss Lowell was keenly interested in the work of the Young Woman's Christian association and Mr. Hibbard was a leader of the Young Men's Christian association.

A Charming Bride
The bride is a graduate of the Janesville high school in the class of '96. She has resided in this city all her life and is one of its most popular young women. Natural ability and the best of advantages have given her many accomplishments which enhance the beauty and graciousness of her character. She is a member of the Alpha Phi and of the Phi Beta Kappa, the honor fraternity of the university. After graduation she taught for a year in the Waupun high school and last year she returned to the university as secretary of the Y. W. C. A.

To Go To Japan
Mr. Hibbard is a member of the Alpha Delta Phi and also of the Phi Beta Kappa. During his university life he was greatly interested in the student volunteer movement. For the

Novel Wedding Trip
Mr. and Mrs. Hibbard will leave this evening on their wedding trip. After a ten days' absence they will return to this city for a few days and they will then go east for a month, the trip including a visit at Fire Island and a trip up the Hudson to Lake George. Later they will again return to Janesville for a few days, after which they will go to Vancouver by the Canadian Pacific and sail from there for Japan on the sixth of October. Their first month will be seven years from now unless there is imperative reason for their return to this country. Mr. and Mrs. Hibbard are looking forward to their work in their foreign home with courageous zeal and hopefulness and they will be attended by the best wishes of a multitude of personal friends.

BOYS IN BLUE ARE AFTER YOU

CHRIST CHURCH CADETS WANT
MAGAZINE SUBSCRIBERS.

THEY NEED NEW UNIFORMS

Meet Regularly on Mondays for Drill,
But This Week, Meet on
Friday.

If you see a boy dressed in army blue marching along the street with his shoulders thrown back and squared in the most military manner, do not think that the United States has declared war and called out its citizen soldiers or that Janesville is in imminent danger of an attack. It is only a member of the Christ Church Cadets, who is trying to induce you to join their subscription for a magazine so that the corps can have new uniforms of the most approved style. This little corps of soldiers are very much in earnest in their work. They are the coming fighters of this nation, the defenders of her honor and the vim with which they are taking hold of the intricate maneuvers of the drill manual show that they mean business despite the fact that there is no war close at hand.

Drill Mondays
Each Monday night they meet in the Christ church guild hall and under the directions of Captain Engstrom march and counter march, wheel and file by column in a way that delights the eye of the few old soldiers who are attracted by the rhythmic tread of the feet and peer through the open door.

To Have Rifles
Thus far the drill has been of the "setting up" exercises. The boys have been taught the marching and the standing positions. They have learned to march straight, carrying their eyes to the front and their shoulders set square, little fingers at the seams of the trousers and feet at an angle of forty-five degrees. Thus far they have looked like a raw levy, "rookies," they call them in the army until they get their uniforms. Friday night all of the boys are to receive their rifles, uniforms and equipments.

"Rookies" No Longer
After Friday night plain John Smith will be private, or corporal, or sergeant, or Lieutenant Smith. He will have a number, the same as his equipment, his gun and his locker. He will have a light rifle to keep clean and keep bright; he will have a uniform to keep neat and with all of the buttons sewed on; he will have to have his shoes polished when he comes to drill and a clean white collar that meets and makes a continuous circle. When he steps out onto the drill floor nights he must be as spry and span as though he came out of a band box. Not a speck of dust must be seen and woe to him who neglects to have his belt neatly oiled and his gun bright.

Want New Uniforms
Regular drill nights are Monday, but this week the day has been changed to Friday owing to the carnival which opens next Monday. The boys have the present blue uniforms but they want new ones. They are anxious to be soldiers in reality and to gain this they are trying to earn them themselves by securing subscriptions for the Saturday Evening Post. By this means they hope to secure the much-coveted funds to supply the whole company with what they need.

The partnership heretofore existing by and between W. F. Carle and F. S. Winslow under the name of Carle & Winslow is hereby mutually dissolved. All debts owing to the firm are to be paid to W. F. Carle, who will also pay all debts against the firm.

BAD TALK GETS STRANGER IN JAIL

Young Rhinelander Youth Will Live
at the Hotel Maltress.
For 10 Days.

Riley Wells, a young man claiming Rhinelander as his home was before Judge Field this morning on the charge of using obscene language. M. E. Hilton, the proprietor of the Franklin house was the complaining witness. He stated that Wells and some other parties were fighting in front of his hotel Sunday afternoon when he interfered putting an end to the fight. Wells did not like this very well and called Hilton a number of names. Hilton had him arrested and this morning Judge Field sentenced him to pay a fine of \$5 and costs in all \$7.50 or go to jail. He went to jail.

The trial of the case against Edward Davis, arrested on the charge of battery was adjourned until Oct. 23.

Carpenters At Work: Carpenters are at work today tearing out the ceiling at the West Side fire station preparatory to putting in the overhead truss, made necessary by the taking out of some of the supports to allow the fire engine to be stored in the station. The work will be rushed along as rapidly as possible.

A Big Fight: The report comes from Beloit that members of the Gentry show and some of the residents of the city indulged in a free for all fight last night near the ticket wagon. All sorts of weapons were used in the scrap and resulted in several people receiving severe bruises and cuts. The police arrested two of the circus gang and had them up before the Beloit Justice this morning. Their trial was set for August 18 and they will be boarded by Sheriff Maltress until that time.

NEWS OF THE CITY IN BRIEF.

Want Ball Players: All the amateur ball players of the city are requested to meet at the Golden Eagle at 7:20 this evening.

Stone Hauling: The work of hauling stone from the crusher to Milton avenue has been resumed and twelve teams are now engaged.

Cadets Attention: A meeting of the Christ church cadets will be held Friday evening when lockers, suits and arms will be given out.

Was Not Kidnaped: The kidnaping scare in the Second ward last night turned out to be a joke. The officers found the kidnaped young woman in company with the man she said she was going to marry Saturday.

Clock Must Strike: It now looks as if a striker would be put on the city hall clock. All the committee are in favor of it and it only remains for Chairman Lowell to call the committee together to settle the matter.

Rush Is Here: Architect Rush arrived in the city yesterday to look over the work on the building. Mr. Rush is one of the five architects selected to prepare plans for the Illinois building at St. Louis.

Swallowed His Teeth: J. G. Robertson of Cooksville who swallowed an upper plate of false teeth on July 6, went to Chicago today to have an X-ray examination made and see if the plate could be located. Tomorrow or Thursday Dr. W. H. Palmer will operate on him for the removal of the plate.

Griffin In Trouble: "Darb" Griffin is in jail at Brodhead on the charge of stealing a man's vest in which were his watch, spectacles, pass book, some notes and some small checks. The man missed his property Saturday noon after "Darb" had left for Monroe. He was arrested in Monroe by Marshall Bunt and turned over to the Brodhead officers.

Prizes Given: The Elks committee in charge of the great and glorious Calhounians Bros. circus parade for the last day of the carnival week have offered the following prizes: \$10 for the most complete group on wheels; \$5 for the most comical character in the parade; \$2 for the most comical character masked; \$2 for the most comical character on foot. Salvation Army: Major Peter Glen of Milwaukee will give an interesting and instructive lecture in the Salvation Army hall, Wednesday, August 13, at 8 o'clock in the evening. The address will be illustrated by moving pictures illustrating the principal incidents of the life of the Lord Jesus, as represented in the Passion Play of Oberammergau. In addition to the moving pictures, which are nearly 3,000 feet in length there will be seventy-five stereopticon views which will show the most important branches of the Salvation Army work, and some colored views presenting some of the grand old familiar hymns.

Wants Chickens: Frank Reynolds started out this morning on a purchasing trip among the farmers of the neighboring districts in an attempt to secure two or three hundred chickens in preparation for the increased demand which he anticipates during the carnival week. He says that there has never been such a scarcity of fowls as there has been this summer, and that it is almost impossible for him to obtain the quantities that he wishes. Mr. Reynolds has at present on his poultry farm about a thousand birds old and young, and has found that the demand has never been so great with as high prices as the present season.

R. H. Ashton, general superintendent of the Northwestern, accompanied by R. A. Cowan, superintendent of the Madison division and W. H. Whalen, superintendent of the Northern Wisconsin division were in the city today inspecting the yards and other railroad property. They left here at 10:20 on a special for Beloit where they looked over the property of the company in that city.

An Absorbing Topic.

Lady Fisher—Do you ever think about matrimony, dear?
Lady Candid—Think, my dear? I worry!

What the Letters Meant.

The letters R. S. V. P. are so common that those who do not know their meaning are the exception. But when they first began to come into use on this side of the water they created a lot of discussion and inquiry. In the nation's capital a hostess started her proposed guests a quarter of a century ago by an invitation carrying these letters. Not one of the recipients knew the meaning, but Robert G. Ingersoll, who received one of the cards, firmly announced that they stood for "Right smart virtuals provided."

Abyssinian Was Not Impressed.
Ras Makonnen, the Abyssinian general who has been visiting Paris, surprised the French people by his imperturbability. The magnificence of a military display at Longchamps did not move him to enthusiasm, and he almost yawned at the fireworks display in his honor. He found the weather depressing and, altogether, seemed to vote the entire place a bore.

Ex-Senator Peffer's Work.
W. A. Peffer, formerly senator from Kansas, has been in the background for several years, but is not letting his faculties rest. In his quiet Washington home he is writing a series of reviews of certain periods of American history, and for some time has had in mind writing a work dealing with the question of labor and capital. He has thirty large scrapbooks filled with pictorial and other caricatures of himself and his ideals.

BOYS ARE IN CAMP AT DELAVAN LAKE

Eighteen Members of the Y. M. C. A.
Junior Department Left To-day on Annual Outing.

This morning the Juniors of the local Y. M. C. A. went into camp at Delavan Lake. Eighteen of the juveniles and three older men had the trip in charge. A part of the boys made the trip on wheels and the remainder took the 11:30 train this morning. Their baggage was also sent on the train but did not amount to a great deal, as the greater part of the equipment was hired at the grounds.

The boys will occupy tents at Delavan Lake and will remain in camp for ten days. The time will be taken up according to a regular program, and will be largely devoted to sports of one kind and another, lake trips, swimming and gymnastic drill.

The older persons in charge of the expedition were Dr. F. T. Richards, the president of the Junior department; Secretary J. C. Kline and W. E. Mack, the athletic director. Mr. Mack will have charge of the sports of the camp, and will conduct the swimming classes twice a day, as well as an athletic and gymnastic drill.

Claims Miracle in Picture.

What Annette Sans Sautel of Fall River, believes to be a miracle picture of Christ, a lithograph in which she says the eyes of the Savior open and close, has caused a sensation among the French population there. Despite the fact that the Rev. Raymond Grolleau, pastor of St. Anne's church, in an address before 2,000 people declared that the supposed moving of eyes in a picture of Christ was nothing more than an optical illusion, hundreds of people continue to visit the home of the Sans Sautel, where the lithograph hangs on the dining-room wall.
